

Dedicated to Delivering Great Designs and an Exceptional Service

Studio19 Architects provides a full range of architectural, interior design and master planning services. Recently, the firm found success in AI's 2019 Global Excellence Awards where they were selected as 2019's Most Trusted for Residential Architecture and Interior Design - North West USA. On the back of this win, we profile the firm to discover more about award-winning services they provide to their clients.

Established in 2009, Studio19 Architects is a boutique architectural firm located in Pioneer Square Seattle. Providing full architectural services ranging from Master Planning, Architectural and Interior design, Studio19 Architects has a proven track record of providing architectural services for high-end custom homes, as well as multifamily, mixed-use and high-rise projects throughout the Greater Seattle Area.

At Studio19 Architects, their mission is to inspire and elevate design awareness by transforming the synthetic into the sublime. Their goal for each home is to provide clever design solutions for complex sites, to embrace and accentuate the essence of the Pacific Northwest. Incorporating the unique qualities of the site such as sunlight, vegetation, and topography, allows the home to possess a distinctive upbringing in which one could interpret the concept through the design. Studio19 Architects meticulously examines the tectonics and materiality to create clear concepts for each project, meet the needs of the clients, and construct a home that is more than just a place to live.

Working behind the scenes and supporting the firm in providing these exceptional services is the innovative, hard-working and dedicated team which forms the backbone of Studio19 Architects. The team is recognized for a broad range of skills encompassing both exterior and interior design and details for projects ranging in size from small tenant improvements up to 1,000-acre developments. This experience includes programming, designing, detailing, code approvals, construction documentation and supervision, as well as coordination between client, consultants, vendors and contractors for a wide array of domestic and international project types.

Looking ahead to what the future holds, the team at Studio19 Architects will continue to deliver exceptional service, ensuring that they not only meet the requirements which have been set by their clients, but also surpass their expectations. Studio19 Architects hope to build upon the numerous accomplishments they have achieved over the years, which includes their recent win in Acquisition Intl.'s 2019 Global Excellence Awards where they were deservedly awarded the accolade as 2019's Most Trusted for Residential Architecture and Interior Design - North West USA.
